SAITEJ BABU PARAB

Ph. No.: 9168899951 | Email id.: Saitejbabuparab07@gmail.com | Portfolio |www.linkedin.com/in/saitej-parab-266889206

Professional Summary

A motivated Master of Computer Applications candidate with hands-on experience in **IT support** and **full-stack web development**. Proficient in **HTML, CSS, JavaScript, PHP, Java and Python** with a strong foundation in creating responsive web applications. Eager to apply robust problem-solving abilities and technical skills to a challenging software industry role, contributing to both individual and organizational success.

Technical Skills

Programming Languages and Frameworks: Java, Python, PHP, JavaScript, HTML, CSS, Bootstrap
Database Management: MySQL

Professional Experience

IT Support Executive Apprenticeship | GSIDC LTD | Panaji, Goa *July 2023 – July 2024*
- Provided comprehensive technical support for hardware, software, and network systems.

Jr. Web Developer | Eightyfive Technologies | Goa *Sept 2021 – Oct 2021*
- Contributed to the front-end development of web applications using HTML, CSS, AJAX, jQuery, and JavaScript.
- Implemented responsive web pages for 1 client project, resulting in improved mobile accessibility and user engagement.

Backend Developer Intern | Eightyfive Technologies | Goa *Aug 2021 – Sept 2021*
- Developed and maintained server-side logic for web applications using PHP.
- Managed and queried databases using MySQL to support application functionality.

Web Development Intern | ASK Systems | Duler, Mapusa, Goa *Feb 2021 – June 2021*
- Designed and developed client websites from the ground up using HTML, CSS, and JavaScript.
- Utilized the Bootstrap framework to create fully responsive and mobile-first web pages.

Projects

Intelligent Movie Recommendation System
An end-to-end recommendation engine built with **Python and Streamlit** to provide personalized movie suggestions. Utilized **Scikit-Learn** for **vectorization** and **Cosine Similarity** algorithms on a dataset of 5,000+ movies. Features included a secure user authentication system to solve the "cold start" problem, real-time search with fuzzy matching, and an analytics dashboard for **data visualization**.

Movie Theater Management System
A comprehensive web application built with PHP and MySQL to manage theater operations. Features included online booking, seat selection, show time management, and user account administration. The front-end was developed using HTML, CSS, and Bootstrap for a responsive user experience.

Pet Adoption System
A PHP-based platform designed to connect potential adopters with pets in need of a home. The system allowed users to browse available pets, view detailed profiles, and submit adoption applications. Utilized MySQL for the database and a responsive front-end built with HTML, CSS, and JavaScript.

Education

Master of Computer Applications (MCA) *2024 – Present*
Progressive Education Society's Modern Institute of Business Studies, Nigdi, Pune

Bachelor of Computer Applications (BCA) (CGPA: 8.4) *2020 – 2023*
SV's Sridora Caculo College of Commerce and Management Studies, Khorlim – Mapusa, Goa

HSC-Science (PCM) *2018 – 2020*
Purushottam Walawalkar Higher Secondary School, Mapusa Bardez-Goa

Key Skills

Problem-Solving | Time Management | Team Leadership | Event Organization | Multitasking

Certifications

Agile Fundamentals *Instructor: Vipesh Singla, MBA (Certified SAFe Agile Coach)* Completed training on Agile methodologies, covering the Agile Manifesto, Scrum framework, and product management strategies for iterative software delivery.

Activities & Interests

- **Karate:** Black Belt practitioner and instructor, fostering discipline and mentorship.
- **Fitness:** Committed to a daily routine of morning runs.
